

(?) Success

A was in the location at 15 minutes before the time, and spent 15 minutes after the time. (Success, A's rate is 5)

A was not in the location at 15 minutes before the time, and didn't spend 15 minutes after the time, also, B was in the location at the time. (Full Unsuccess, A's rate is 3, B's rate is 5)

A was not in the location at 15 minutes before the time, and didn't spend 15 minutes after the time, but B was the same with A. (Half Unsuccess, A & B's rates are 4)

A was late to the time but spent 15 minutes after the time. B was in the location at the time and spent the time. (Half Unsuccess, A's rate is 4, B's rate is 5)

A was in the location at 15 minutes before the time, but didn't spend 15 minutes after the time. B was in the location at the time and spent the time. (Half Unsuccess, A's rate is 4, B's rate is 5)
